

G5 Massage

G5 Massage Therapy

G5 is a name known internationally for deep tissue massage and cosmetic benefits for those wishing to improve the contour of the skin. The G5 machine has a variety of applicator heads, which when applied gyrate and vibrate providing a variety of different massage techniques. Combine this treatment with a pure carrier oil and the results are amazing.

G5 Treatment Recommendations

- Exfoliation Treatments
- Detoxification Treatments
- Lymphatic Drainage
- Cellulite Reduction Treatments – Pre-post liposuction
- Beauty Box Packages – contact clinic for information
- Relaxation Massage
- Reflexology Treatments

Physical Therapy & G5 Electrotherapy Massage

Used by therapists in the field of sports therapy, this massage can provide deep cleansing to the muscle tissues removing the toxin build up of lactic acid and excess carbon dioxide. The results from a course of G5 massage are reliable and effective in improving circulation through the blood, lymphatic & muscular systems.

Pre-Post Liposuction & G5 Electrotherapy Massage

Completing a course of G5 prior to liposuction can be beneficial in the breakdown of fat cells. Post surgical G5 massage is excellent in improving the skins smooth contour reducing the 'orange peel' cellulite effect. It is essential to complete G5 as a course when working in this specialist area.

Therapeutic Relaxation & G5 Electrotherapy Massage

G5 as an individual treatment for those wishing to experience the benefits of tissue exfoliation, general cleansing of the body tissues & deep massage for relaxation. G5 can be adapted for treatments such as reflexology & lymphatic drainage.
