

VTCT Level 3 Diploma in Electrolysis Diathermy & Blend (IHBC)

Who can do this course?

Therapists who wish to add a specialist treatment to their skill base. This qualification is essential for the modern therapist wanting to offer their clients a more advanced hair removal treatment.

What is involved in the course?

You will learn the machines, needles & treatment techniques. The use of diathermic, galvanic & blend currents when treating superfluous hair growth. The related anatomy & causes of primary & secondary hair growth.

What is the qualification and how is it gained?

This is a VTCT Level 3 Diploma in Epilation, which requires continued practice to ensure a therapist can recognise a realistic treatment and provide competent electrolysis through continued assessment.

How is the course taught?

A blend of theory and practical sessions in the training suite, you will be fully supported whilst you develop confidence. Clients are provided by the Glasshouse Therapy Centre (GHTC) during your course.

What skills will I learn?

The required skills to provide a competent and safe treatment for clients with superfluous hair growth.

What will I require to do the course?

Students will be required to train in a professional uniform. GHTC can provide a therapist's uniform order sheet supplied on request. Students will be provided with a training manual but will need to supply their own notepaper & pens.

Equipment costs to the student

GHTC will provide basic equipment to use during the course.

Length of course

This is a 2-day course with a final assessment day negotiated between the centre & student
