

VTCT Level 3 Diploma in Anatomy & Physiology

Who can do this course?

An excellent course for anyone who would like to gain an understanding of the systems & physiology of the human body. This qualification once gained will allow Approved Prior Learning for most VTCT Beauty/Holistic qualifications for two years.

What is involved in the course?

Centre devised modular anatomy & physiology text booklets will support distance learning. Recommended further reading & video support is identified in the course literature.

What is the qualification and how is it gained?

This is a Level 3 Non-medical Diploma in Anatomy & Physiology, which is gained through completion and presentation of a portfolio of evidence and a final exam.

How is the course taught?

All modular anatomy & physiology text booklets have specific homework questions to be completed by the student as they progress through the course. A designated tutor will support the students and sign off completed work. Electronic communication & regular phone calls will be available over the training period..

What skills will I learn?

A sound knowledge of the human body and its physiology. Learn how homeostatic imbalances can affect the natural equilibrium of systems. Understand more client conditions/diseases and why it is essential to refer to medical practitioners.

What will I require to do the course?

Students will be provided with an anatomy & physiology training manual.

Length of course

This is a distance-learning course, which allows students to work at their own pace but an exam day will be required to gain certification.

Course fees

Distance learning support & exam day £500

Accommodation Options

- Local accommodation available on request
