

## **VTCT Qualification Title**

### **Unit VR18 Provide Mechanical Electrical Treatments for the Head & Neck**

#### **Who can do this course?**

This unit will allow therapists with a recognised full level 2 beauty therapy qualification or a professional qualification in facial skin care & massage to advance in their facial skills.

#### **What is involved in the course?**

The course delivers training in steaming, extraction of comedones & milia via micro-lance, galvanic, faradic, direct & indirect high frequency, infra-red technology, micro-current & vacuum suction electrical facials. There will be related anatomy & physiology and the essential knowledge required for all electrical machines and appropriate mediums. Designing a programme of electrical facials to suit a clients needs is an essential part of this training programme.

#### **What is the qualification and how is it gained?**

This is a VTCT unit, which is gained through continued practical training and assessment. Completed homework prepared in work booklets will develop and provide the essential knowledge required to show competence and a full understanding in the specialist field.

#### **How is the course taught?**

Through a combination of practical and theory lessons in a private clinic where you will also be able to work on clients. Home study is essential to gain experience and further evidence for the student portfolio. Clients will be provided by the Glasshouse Therapy Centre (GHTC) during the course.

#### **What skills will I learn?**

The required industry skills to ensure you complete a range of competent electrical facial treatments to commercial standards.

#### **What will I require to do the course?**

Students will be required to train in a professional uniform. The Glasshouse Therapy Centre (GHTC) can provide a therapist's uniform order sheet supplied on request. Students will be provided with a training manual but will need to supply their own notepaper & pens.
